Geza Kovacs

geza@cs.stanford.edu gkovacs.com

Education

Stanford University	PhD	Computer Science	GPA: 4.0/4.0	*2013 – now*
Massachusetts Institute of Technology	BS+MEng	Computer Science	GPA: 5.0/5.0	*2008 – 2013*

Industry Experience

Microsoft Research – Research Intern, Redmond *Summer 2015*
Microsoft Research Asia – Research Intern, Beijing *Summer 2014*
Google – Software Engineering Intern, Mountain View *2011, 2012, 2013 (3 Summer Internships)*
Microsoft Corporation – Software Development Engineer Intern, Redmond *Summer 2010*
Google Summer of Code – FFmpeg (video transcoding library) *Summer 2009*

Research Highlights

HabitLab: Large-scale Online Behavior Change Experiments (published at CHI 2019 and CSCW 2018)
HabitLab is an online experimentation platform I developed during my PhD at Stanford with *12,000+ daily active users*, which I have used to conduct a variety of experiments, data science, and machine learning work:

- Predicted changes in users' intervention preferences over time (using **LSTM networks**; Python/PyTorch)
- Analyzed time redistribution effects caused by interventions (using **mixed models**; R/Python/SciPy)
- Analyzed effects of rotating interventions on effectiveness and attrition (**cox regression and LMM**; R)
- Personalized interventions to each user based on effectiveness (using **reinforcement learning**; Python)
- Predicted time spent on webpages, based on browsing visit history data (using **random forests**; Python/H2O)

Effects of In-Video Quizzes on MOOC Lecture Viewing (published at Learning at Scale 2016)
A large-scale data analysis of Coursera's in-video interaction logs across Machine Learning courses, analyzing effects of in-video quizzes on users' video watching and seeking behaviors (implemented in Python).

EduFeed: A Social Feed to Engage Preliterate Children in Educational Activities (published at CSCW 2017)
Smart Subtitles for Foreign Language Learning (published at CHI 2014)
FeedLearn: Microlearning in Facebook Feeds (published at CHI 2015 EA)
QuizCram: Question-Driven Video Viewing (published at CHI 2015 EA)

Teaching Experience

Understanding Users (CS 377U) at Stanford – Teaching Assistant *Spring 2019*
Human Computer Interaction Research (CS 376) at Stanford – Teaching Assistant *Fall 2018*
Natural Language Processing (6.863) at MIT – Teaching Assistant *Fall 2012*

Open-source Projects

UNetbootin (LiveUSB Creator) *January 2007 – now*
Built a utility to create bootable USB flash drives for a variety (50+) of Linux distributions.
40 million downloads, http://unetbootin.github.io/

Wubi (Ubuntu Installer for Windows) *November 2006 – August 2007*
Built the first versions of Wubi, which allows Windows users to safely install Ubuntu without repartitioning.
Now part of Ubuntu and ships on the official Ubuntu CD, http://wubi.sourceforge.net/

Relevant Coursework

Deep Learning (CS 230), Natural Language Processing (6.864+6.863), AI (6.034), Network Analysis (CS 224W), Computational Cognitive Science (6.804), Computational Biology (6.047), HCI (6.803), Computer Security (6.857), Compilers (CS 143), Algorithms (6.006+6.046), Linear Algebra (18.700), Probability (18.440)

Skills and technologies

Programming Languages: Python, JavaScript, R, Java, C, C++, C#, Scala, Ruby, CoffeeScript, Haskell, Bash
Machine Learning: PyTorch, sklearn, Keras, TensorFlow, H2O, RL, Deep Learning (RNN/LSTM/CNN/GAN)
Data Mining: Jupyter, NumPy, SciPy, Pandas, NLTK, NetworkX, MapReduce, Mongo, SQL, ggplot2, Plotly
Data Science: Mixed models, Survival analysis, Experiment design, A/B testing, Multi-armed bandits, NLP
Web Development: HTML/CSS/JS, Node.js, Flask, Polymer, D3.js, React, Flow, Webpack, MongoDB, Redis
Mobile Development: Cross-platform JS (Cordova, NativeScript), Android (Java), Responsive Web Design

Awards and Honors

Stanford Human-Centered AI Grant (for my research project HabitLab), 2018
National Defense Science and Engineering Graduate Fellowship, 2013
National Science Foundation Graduate Research Fellowship, 2013
1st place, Most Useful, ACM UIST (User Interface Software and Technology) Student Innovation Contest, 2012
1st place, ACM CHI (Conference on Human Factors in Computing Systems) Student Research Competition, 2012
1st place, MIT Autonomous Robotics Competition (Maslab), 2010
