RESEARCH EXPERIENCE	<b>Stanford HCI Group – PhD student.</b>	Leading the following research projects:	Fall 2013 – now
	<i>HabitLab: Personalized Interventions for Better Online Habits</i>		
	HabitLab is a Chrome extension which helps users achieve goals like wasting less time on Facebook/Youtube, by deploying a variety of interventions and determining what works most effectively for each user.		
	<i>Advertisements: Repurposing Web Advertisements as Microlearning Exercises</i>		
	Advertisements is a Chrome extension that helps you learn vocabulary as you browse the web, by replacing advertisements with microlearning exercises.		
	<i>FeedLearn: Microlearning in Facebook Feeds (CHI 2015 WIP)</i>		
	FeedLearn is a Chrome extension that helps you learn vocabulary as you browse your Facebook feed, by inserting interactive quizzes which you can answer without leaving your feed.		
	<i>QuizCram: Question-Driven Video Viewing (CHI 2015 SRC)</i>		
	QuizCram is a viewer for MOOC lectures that enables quiz-driven video navigation and reviewing. User studies show higher engagement with quizzes and more reviewing compared to Coursera’s in-video quiz format.		
	<b>MIT UID Group – Undergraduate/MEng research.</b>	Led the following projects:	Fall 2011 – Spring 2013
	<i>Smart Subtitles for Foreign Language Learning (CHI 2014 full paper)</i>		
	Smart Subtitles is a video viewer that uses an interactive transcript to help learners learn vocabulary while viewing foreign-language videos. Users learned more vocabulary with our system than with bilingual subtitles.

TEACHING

**Teaching Assistant – Natural Language Processing (6.863) at MIT** *Fall 2012*

Helped write assignments, managed the course infrastructure, and graded assignments. I developed new tools to make the assignment grading process faster, semi-automatic, and paper-free.

**Instructor – Introduction to C++ IAP (6.096) at MIT** *January 2011*

Gave lectures, helped write and grade assignments, and helped students in lab for a student-run, for-credit introductory C++ course. The teaching materials I produced have been made available on OpenCourseWare: <http://ocw.mit.edu/courses/electrical-engineering-and-computer-science/6-096-introduction-to-c-january-iap-2011>

**Software Director – Maslab Autonomous Robotics Competition at MIT** *January 2011*

As the software director for the competition, I gave the software-related lectures, managed the software for the competition, and helped students in lab.
